What is Aluminium Foil Tape?

A high tensile strength aluminum foil backing, combined with a high performance solvent acrylic adhesive, protected by an easy-release silicone release paper

Uses

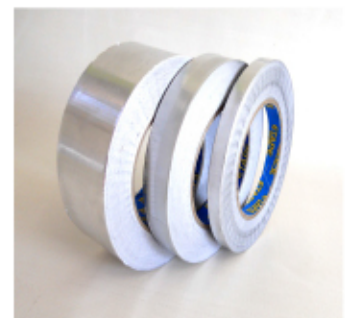

This product is used predominately in the HEVAC industries to join foil faced duct insulation materials, sealing cold store insulation, heat reflection and as masking in electroplating processes, power-coating and hard chroming

Product Size and Form

The standard sizes are 25m and 50m lengths with common widths being 24mm and 48mm up to 1000mm. Available in 30 Mic, 50 Mic and 70 Mic
Any other sizes available on request

Features

- * High quality adhesive with strong adhesion and holding power offers permanent sealing and bonding on joints and seams in HVAC ductwork application.
- * Good aging resistance both indoors and outdoors.
- * Low moisture vapor transmission rate offers excellent sealing and patching performance.

These products should be tested before use, to ensure suitability for intended application. Should you require technical assistance, please contact our technical service department. Easitape is a South African Manufacturer & Supplier of Tapes
