Double Sided Tape Polyprop (RDA)

What is Double Sided Polyprop Tape?

Double-sided tape is any pressure sensitive tape that is coated with adhesive on both sides. It is designed to stick two surfaces together, often in a way which is not visible in the end product due to it being in between the objects rather than overlaying them.

Double coated OPP tape with solvent acrylic adhesive.

Uses

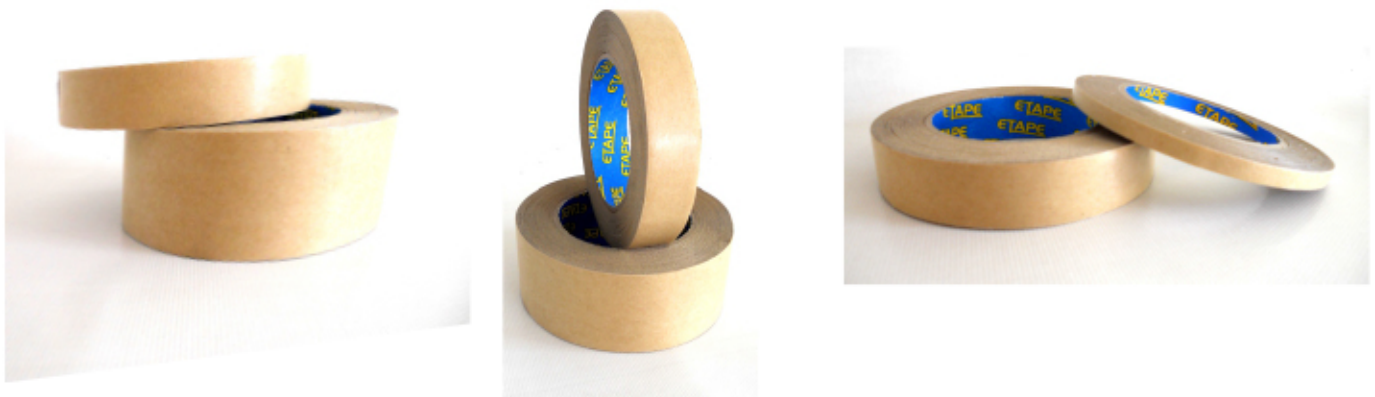

A wide variety of surface to surfacelaminations from Automotive to decorative applications. Print finishing and Nameplate Mounting
Good balance between initial tack, peel adhesion, and holding power, for general purpose.

Product Size and Form

The standard length is 33m, also available in 50m, 100m and 1000m lengths, and available widths of 6mm, 12mm, 18mm, 24mm, 36mm, 48mm, 72mm, 96mm and 144mm.
