Traction Tapes (Nipple Tape)

What is Traction Tape?

Embossed / Smooth: Consists of a specially treated fabric covered with a silicone coating. This surface is highly resistant to sticky surfaces, yet provides a reliable 'non-slip' effect on smooth substrates.

Cork: Is a pressure sensitive self-adhesive roller covering tape used for roller wrapping purposes on rollers of winders and slitting machines

Uses

It is specially designed for roller wrapping applications. In many cases, a new covering may be applied without removing the roller from the machine.

Industries include:

- Printing Industries
- Textile Industries
- "Focus" label printing
- General, web-based processing & converting

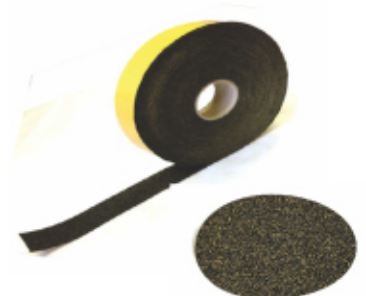

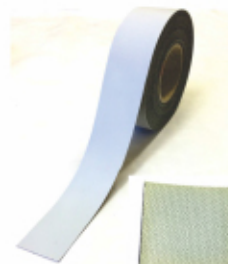

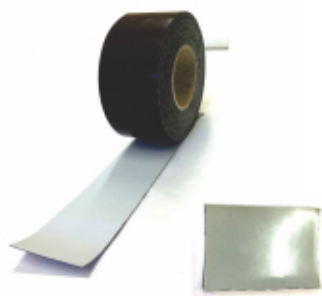

Product Size and Form

Embossed / Smooth

Standard length is 25m and available in width of 50m
- other sizes available on request

Cork

Standard length is 31m and available in width of 50m
- other sizes available on request
