What is a Wonki Wobbler and what are the uses?

Wonki Wobblers are used in stores to create an eye catching exciting display for promotional purposes. Attached to one side the promotional object, and the other side is then stuck to the shelf/display.

They come in the classic I-shape or the economy straight version

Wobblers are generally made from 200 micron PVC. We can however make them in 100 micron for very light items and 400 micron for heavier displays
A double sided 1mm foam / PVC strip is placed on either side of the Wobbler.

We are able to place a finger lift on foam strips for quick application time

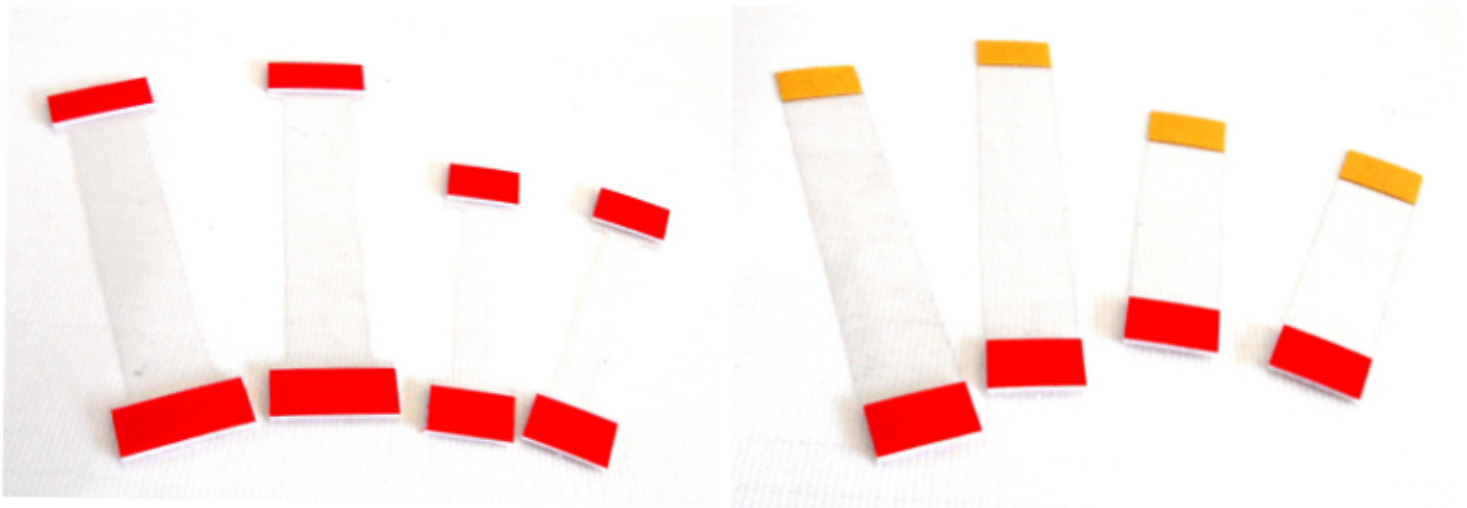

Product Size and Form

We offer 4 standard products:

I shape 122mm x 30mm
 80mm x 20mm

Straight cut 120mm x 20mm
 80mm x 20mm

We are able to create many different shapes and sizes to accommodate your needs

These products should be tested before use, to ensure suitability for intended application. Should you require technical assistance, please contact our technical service department. Easitape is a South African Manufacturer & Supplier of Tapes

Made in Sunny South Africa
